# BEARS SEIZED THE OPPORTUNITY

Lethargy of Trading Invited Their Aggressive Action.

ONE INSTANCE OF STRENGTH.

All High-Priced Specialties Suffered Except Pallman, Which Advanced Eight and a Half Points-Call Money Rates Much Easter.

NEW YORK, Oct. 12.-The stock market made a couple of feeble efforts to advance this morning. The lethargy of the trading was an invitation to bear aggression, and when a determined leadership eveloped for that faction, the profes sional element among the traders was quick to follow the lead. A single block St. Paul of 6,500 shares was quickly followed by another of 4,000 shares, offerfollowed by another of 4,000 shares, offered by brokers who are usually employed
by the acknowledged bear leader. Selling generally around the room was the
sequence. The two large blocks of St.
Paul were at 124%, and the price had
fallen to 123% in a few minutes. The
grangers, New York Central, C., C.,
and St. Louis, and the leading high-priced
specialties were the principal sufferers.
Brookirn Rapid Transit was under consolicuous pressure, and dropped to 85%.

market.
Call money worked a shade easier, and never touched higher than 7 per cent. The money cutlook is considered anything but favorable. The violent upward movement 13 per cent, in the pound stelling exchange, both for actual rates and posted rates, is regarded as an admonition that an easing of the money rate here is likely to lead to a demand from London for gold.

is likely to lead to a demand from London for gold.

The weekly statement of the Bank of England discloses a very slight increase of the proportion of reserve to liability, and the statement for the same period of the Bank of France shows a loss of \$2,300,000 in gold, while demand for credits has increased in its loans about \$10,400.000. The sterling exchange rate at Paris dropped off an additional % centime. It is exceedingly significant that the Bank of Eagland parted with some flexacouting gold for shipment to Paris, which city has been looked to from all points as the available source for relief for the need of gold.

the available source for relief for the need of gold.

The financial upset in Italy had a disturbing effect in all the European money markets. The sharp upward movement here not only in sterling exchange, but also in Fronch exchange, suggests a coming pressure on this centre.

The bond market was moderately active, and shows general decline. Total sales, par value, \$1,680,000. United States 2s advanced 4, and the new 4s registered 1, in the lid price.

The total sales of stocks were 346,400.

NEW YORK, Oct. 12.—COTTON—To-day the cotion market was an erratic affair throughout, with the built and bear factions in control by turns. On the opening of the call buying orders held over from yesterday and a small movement at the ports brought an advance of 2 points on the near months, while the distant months developed weakness and dropped 1 to 3 points. Reports of weakness in Liverpool during the first hour brought a much lower level of prices, active liquidation of investment and professional holdings being a feature. Shortly after midday there was a sudden upilift on a rush to cover by shorts, storted by predictions that to-morrow's receipts would be exceptionally light, but the better feeling soon petered out, and once more prices turned downward, dropping 8 points in about as many minutes. Wall street, New Greans and Europe sold freely. Shorts and American spinners were the buyers. Early in the session a well-known Philadelphia firm ourchased several large lots of August oeliyery. The market closed steady at about the lowest point of the day, at a net loss of 10 to 13 points.

### CHICAGO MARKET.

CHICAGO MARKET.

CHICAGO Oct. 12—A slack export demand and disappointing cables weakened wheat to-day. The market was nervous and excitable throughout, but a downfill one, and December closed with a loss of %c. Corn suffered from too much profit-taking, and closed ¼c. lower. Cats closed a shade higher. Liquidation burdened provisions. Pork lost 12½c.; lard, 5007½c., and ribs 5c.
